-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. Claims 2-8, 10-21, 24-30, 33-35, 36-60, 62, and 63 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on January 22, 2005.

2. Claims 1, 9, 18, 19, 22, 23, 31, 32, 36, and 61 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 2, "the bearing points" and "the steering-head angle" lack clear antecedent basis in the claims.

In claim 9, lines 2-3 "the bearing" and "the steering axis", and "said fork joint" lack clear antecedent basis.

In claim 22, line 15, it is not clear if "the fork joint" is the first or second fork joint.

Claim 61 must end in a period ".". In line 2, "such as" is indefinite. In line 8, "partconnected" should be -part connected-

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Ackley (USPN 6,786,499).

Achley shows a bicycle suspension system including a frame 10, with an adjustable steering angle. It includes a bearing points a fixed point 30 and a variable steering point 27 on swinging arm 28 that determine the steering angle.

5. Claims 18 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Bynoe (USPN 6,149,173).

Bynoe shows a telescopic bicycle fork formed from three telescoping parts that are slidable in each other and have two springs 74, 76 connecting respective parts.

6. Claim 9 is rejected under 35 U.S.C. 102(b) as being anticipated by Callaluca.

Callaluca shows a bicycle front fork with a variable steering angle including a fixed bearing point 12, a variable bearing point 60 and telescopic forks 9.

7. Claims 22, 23, 31, 32, 36 and 61 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3611

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hoose shows a three-part telescoping fork.

Seidle, Kurawaki, McBride, and Inui show front fork suspensions.
